THE W. AND S. TUKE PRIZE ESSAY.

EXTENSION OF TIME.

Some of the descendants of William and Samuel Tuke (the former of whom proposed the establishment of the York Retreat in 1792, and the latter wrote the "Description" of the humane system of treatment commenced there) having placed at the disposal of the Medico-Psychological Association the sum of One Hundred Guineas, the Association offers a prize of this amount for

"The best series of original Cases and Commentary, illustrative of the somatic etiology of various forms of insanity, accompanied, when possible, in fatal cases, by reports of post-mortem examinations and microscopical preparations—their bearing on the symptoms being pointed out."

Cases not seen by the writer may be cited, but must be distinguished from those actually witnessed by himself.

The W. and S. Tuke Prize is open to all without restriction as to country, profession, &c., but the right is reserved to withhold it, should there be no essay of sufficient merit. Essays, to be written in English, and not in the author's handwriting, to be sent in a sealed envelope, bearing the name of the essay, containing the name of the writer, to the undersigned, not later than June 30th, 1877. The microscopical preparations, but not the essay, to belong to the Association.
