Index to Volume 181

Compiled by Linda English

PART I — SUBJECTS 3–16
PART II — CONTRIBUTORS 16–23
PART III — BOOK REVIEWS 24

Abbreviations: C, correspondence; suppl., supplement

PART I. SUBJECTS

Abnormal Involuntary Movements

Antipsychotics

Antisocial behaviour

Anxiety disorders

Appendicectomy

Use of drugs, alcohol and tobacco by people with schizophrenia. Robin G. M. C. Reid on behalf of the Scottish Comorbidity Study Group 321–325

Alzheimer’s disease

Costs of dementia. A. Bianchetti et al (C) 533–534

Disease progression and cost of care in dementia. J. Wolstenholme et al 36–42

Genetics of Down’s syndrome and Alzheimer’s disease. S. Shamas-Ud-Din (C) 167–168. C. Holmes (Author’s reply) (C) 168

Amaurotic family idiocy

Henry Rollin (One hundred years ago) 257

Amygdala

Measuring volume. A. S. David et al (C) 255–256. S. A. Chance et al (Authors’ reply) (C) 256

Anterior cingulate cortex

Cell adhesion molecule expression in depression. Alan J. Thomas et al 129–134

Antidepressants

Citalopram in the prevention of recurrent depression in elderly patients. René Klysner et al 29–35

The debate continues. U. F. Malt (C) 531. J. M. onrief (Author’s reply) (C) 531

Depression and mortality in a high-risk population. Melanie Abas et al 123–128

Follow-up of childhood depression: historical factors. J. Hynes and N. M. McCune (C) 166–167. E. Fombonne (Author’s reply) (C) 167

Interventions for treatment-refractory depression. Nicola Stimpson et al (Review article) 284–294

Patient adherence with treatment. S. Lawton-Smith (C) 78. A. C. M. Vergouwen and A. Bakker (C) 78–79. S. Pampallona et al (Authors’ reply) (C) 79

Unethical use of placebo controls.

A. K. Jainer and N. Soni (C) 532–533. R. Klysner and M. Andersen (Authors’ reply) (C) 533

Brain morphology in antipsychotic-naive schizophrenia. W. Cahn et al (suppl. 43) s66–s72

Dopamine and antipsychotic drug action revisited. H. M. J. Jones and L. S. Piliowsky (Editorial) 271–275

Regional selectivity of novel antipsychotics. M. Kopecek et al (C) 254–255. J. L. M. artinot et al (Authors’ reply) (C) 255

Sexual dysfunction. C. Abbasian (C) 352

Sexual dysfunction in patients taking conventional antipsychotics. S. M. Smith et al 49–55

see also Clozapine; Quetiapine

Antisocial behaviour

Influence of supplementary vitamins, minerals and essential fatty acids. C. Bernard Gesch et al 22–28

Anxiety disorders

Antenatal anxiety, parenting and behavioural/emotional problems in children. J. Barlow (C) 440–441. T. G. O’Connor (Author’s reply) (C) 441

Are they really expressions of instability in the human genome? David A. Collier (Editorial) 457–459

Prevalence of psychiatric disorder and the need for care in Northern Ireland. P. M. Conchello et al 214–219

Appendicectomy

Use of drugs, alcohol and tobacco by people with schizophrenia. Robin G. M. C. Reid on behalf of the Scottish Comorbidity Study Group 321–325

Alzheimer’s disease

Costs of dementia. A. Bianchetti et al (C) 533–534

Disease progression and cost of care in dementia. J. Wolstenholme et al 36–42

Genetics of Down’s syndrome and Alzheimer’s disease. S. Shamas-Ud-Din (C) 167–168. C. Holmes (Author’s reply) (C) 168

Amaurotic family idiocy

Henry Rollin (One hundred years ago) 257

Amygdala

Measuring volume. A. S. David et al (C) 255–256. S. A. Chance et al (Authors’ reply) (C) 256

Anterior cingulate cortex

Cell adhesion molecule expression in depression. Alan J. Thomas et al 129–134

Antidepressants

Citalopram in the prevention of recurrent depression in elderly patients. René Klysner et al 29–35

The debate continues. U. F. Malt (C) 531. J. M. onrief (Author’s reply) (C) 531

Depression and mortality in a high-risk population. Melanie Abas et al 123–128

Follow-up of childhood depression: historical factors. J. Hynes and N. M. McCune (C) 166–167. E. Fombonne (Author’s reply) (C) 167

Interventions for treatment-refractory depression. Nicola Stimpson et al (Review article) 284–294

Patient adherence with treatment. S. Lawton-Smith (C) 78. A. C. M. Vergouwen and A. Bakker (C) 78–79. S. Pampallona et al (Authors’ reply) (C) 79

Unethical use of placebo controls.

A. K. Jainer and N. Soni (C) 532–533. R. Klysner and M. Andersen (Authors’ reply) (C) 533

Brain morphology in antipsychotic-naive schizophrenia. W. Cahn et al (suppl. 43) s66–s72

Dopamine and antipsychotic drug action revisited. H. M. J. Jones and L. S. Piliowsky (Editorial) 271–275

Regional selectivity of novel antipsychotics. M. Kopecek et al (C) 254–255. J. L. M. artinot et al (Authors’ reply) (C) 255

Sexual dysfunction. C. Abbasian (C) 352

Sexual dysfunction in patients taking conventional antipsychotics. S. M. Smith et al 49–55

see also Clozapine; Quetiapine

Antisocial behaviour

Influence of supplementary vitamins, minerals and essential fatty acids. C. Bernard Gesch et al 22–28

Anxiety disorders

Antenatal anxiety, parenting and behavioural/emotional problems in children. J. Barlow (C) 440–441. T. G. O’Connor (Author’s reply) (C) 441

Are they really expressions of instability in the human genome? David A. Collier (Editorial) 457–459

Prevalence of psychiatric disorder and the need for care in Northern Ireland. P. M. Conchello et al 214–219

Appendicectomy

Attention-deficit hyperactivity disorder (ADHD)
Conduct problems, gender and adult psychiatric outcome. Søren Dalsgaard et al 416–421
Follow-up of childhood depression: historical factors. J. Hynes and N. M CcCune (C) 166–167. E. Fombonne (Author’s reply) (C) 167
Pathways to care in children at risk. Kapil Sayal et al 43–48
Pathways to care. J. Cribb (C) 536. K. Sayal et al (Authors’ reply) (C) 536–537
Auditory hallucinations
Cognitive-behavioural therapy in early schizophrenia. S. Lewis et al (suppl. 43) s91–s97
Independent course of childhood hallucinations. Sandra Escher et al (suppl. 43) s10–s18
Autoimmune disorders
Post-streptococcal psychiatric and movement disorders in children. Russell C. Dale and Isobel Hymen (Editorial) 188–190
Bipolar disorder
Cognitive impairment. J. S. Rubinstein and B. J. Sahakian (C) 440
Rural first-episode schizophrenia and bipolar disorder. Paul J. Scully et al (suppl. 43) s3–s9
Black people
Books see Literature
Borderline personality disorder
Personality disorder. A. Ryle (C) 76–77. R. E. Kendell (Author’s reply) (C) 77–78
Brain
Brain ageing and dementia: what makes the difference? Lawrence J. W halley (Editorial) 369–371
Brain weight in suicide revisited. E. Saibil (C) 441–442
Cell adhesion molecule expression in depression in the elderly. Alan J. Thomas et al 129–134
Cerebellar activation in subjects recovered from depression. K. A. Smith et al 411–415
Consciousness still a mystery. H. Jones (C) 537
Dopamine and antipsychotic drug action revisited. H. M. Jones and L. S. Pilowsky (Editorial) 271–275
Effects of cognitive remediation therapy. Til Wykes et al 144–152
Executive dysfunction and duration of untreated psychosis. Eileen Joyce et al (suppl. 43) s38–s44
Handedness, language lateralisation and asymmetry in the aetiology of psychosis. T. J. Crop (Review article) 295–297
Measuring amygdala volume. A. S. David et al (C) 255–256.
S. A. Chance et al (Authors’ reply) (C) 256
Mind, brain and consciousness. Susan Greenfield (Editorial) 91–93
Morphology in antipsychotic-naïve schizophrenia. W. Cahn et al (suppl. 43) s66–s72
Neuroimaging findings in PTSD. Alastair M. Hull (Review article) 102–110
Non-right-handedness and schizophrenia. M. Annett (C) 349–350
Regional selectivity of novel antipsychotics. M. Kopec et al (C) 254–255. J. L. M artinot et al (Authors’ reply) (C) 255
Sir Christopher Wren: illustration from Cerebri Anatomie by Thomas Willis. Chosen by Robert Howard (Psychiatry in pictures) A14
Stress and the developmental hypothesis of schizophrenia. David Cotter and Carmine M. Pariante (Editorial) 363–365
Structural M R I in first-episode schizophrenia and affective disorders. R. K. R. Salokangas et al (suppl. 43) s58–s65
Sudden death and suicide: comparison of brain weight. S. J. Hamilton and R. F. T. Mcmahon 72–75
Temporal lobe volume changes in people at high risk of schizophrenia with psychotic symptoms. Stephen M. Lawrie et al 138–143
Britain
Economic costs of post-natal depression. Stavros Petrou et al 505–512
see also Cardiff Depression Study; Edinburgh High-Risk Study; England; Nithsdale Schizophrenia Surveys 23
Bulimic disorders
Self-help: trial comparing minimal guidance with face-to-face or telephone guidance. Robert L. Palmer et al 230–235
Cambridge Automated Neuropsychological Test Battery (CANTAB)
Executive dysfunction and duration of untreated psychosis. Eileen Joyce et al (suppl. 43) s38–s44
Cannabis
Psychosis and drug dependence in prisoners. M. Farrell et al 393–398
Cardiff Depression Study
Neuroticism, extraversion, life events and depression. Anne Farmer et al 118–122
Case management
Assessing the evidence. S. J. Ziguras et al (Review article) 17–21
INDEX, VOL. 181

Exposure to case management: relationships to patient characteristics and outcome. Tom Burns et al 236–241

Cell adhesion molecules

Expression in major depression in the elderly. Alan J. Thomas et al 129–134

Center for Epidemiologic Studies - Depression scale

Depression and cognitive decline in elderly people. Sabrina Paterniti et al 406–410
Work, personality traits and depressive symptoms. S. Paterniti et al 111–117

Cerebellum

Activation in subjects recovered from depression. K. A. Smith et al 411–415

Cerebral asymmetry

Handedness, language lateralisation and asymmetry in the aetiology of psychosis. T. J. Crow (Review article) 295–297
Non-right-handedness and schizophrenia. M. Annett (C) 349–350

Cerebral ischaemia

Cell adhesion molecule expression in depression in the elderly. Alan J. Thomas et al 129–134

Checklists

Checklist of Challenging Behaviour 520
Checklist of Challenging Behaviour 411

Childhood and adolescence

Adult psychosis, childhood infections and neurological soft signs. S. J. Leask et al 387–392
Antenatal anxiety, parenting and behavioural/emotional problems. J. Barlow (C) 440–441. T. G. O’Connor (Author’s reply) (C) 441
Follow-up of childhood depression: historical factors. J. Hynes and N. McCune (C) 166–167. E. Fombonne (Author’s reply) (C) 167
Independent course of auditory hallucinations. Sandra Escher et al (suppl. 43) s10–s18
Long-term hospital attendance and appendix removal. N. Nicola J. Dummett et al 526–530
Pathways to care in ADHD. D. J. Cribb (C) 536. K. Sayal et al (Authors’ reply) (C) 536–537
Pathways to care in children at risk of ADHD. Kapil Sayal et al 43–48
Post-streptococcal autoimmune psychiatric and movement disorders. Russell C. Dale and Isobel Heyman (Editorial) 188–190
Predictors of adult psychiatric outcome of attention-deficit hyperactivity disorder. Søren Dalsgaard et al 416–421

Preventing major depression in young people. Gavin Andrews et al (Editorial) 460–462
Sexual molestation of males and psychological disturbance. M. i Cheng (C) 153–157
Social adversity and adolescent psychopathology. Ian M. Goodyer (Review article) 383–386

China

Expressed emotion: a cross-culturally valid concept? Andrew T. A. Cheng (Editorial) 466–467
Psychiatry. H. Shan (C) 257

Chronic fatigue syndrome

Or neurasthenia? L. Bailly (C) 350–351

Citalopram

In the prevention of recurrent depression in elderly patients. René Klysner et al 29–35
Unethical use of placebo controls. A. K. Jainer and N. Soni (C) 532–533. R. Klysner and M. Andersen (Authors’ reply) (C) 533

Clinical effectiveness

Anna Higgitt and Peter Fonagy (Reading about) 170–174

Clozapine

Clozapine-resistant schizophrenia: a positive approach. Lisa Williams et al (Editorial) 184–187
Vascular events associated with pharmacotherapy. P. M. Murphy et al (C) 442

Cocaine

Psychosis and drug dependence in prisoners. M. Farrell et al 393–398

Cognitive-behavioural therapy (CBT)

In early schizophrenia. S. Lewis et al (suppl. 43) s91–s97
For psychosis. E. Kuipers et al (C) 534. D. Turkington (Author’s reply) (C) 534
For schizophrenia. R. Ruddy and A. M.itchell (C) 439. D. Turkington (Author’s reply) (C) 439–440

Cognitive impairment

In bipolar disorder. J. S. Rubinstein and B. J. Sahakian (C) 440
Cognitive functioning in first-episode psychosis and treatment with quetiapine. K. P. Good et al (suppl. 43) s45–s49
Depressive symptoms and cognitive decline in elderly people. Sabrina Paterniti et al 406–410
Edinburgh High-Risk Study. Eve C. Johnstone et al (suppl. 43) s26–s29

Effects on the brain of cognitive remediation therapy. Til Wykes et al 144–152

Estimating cognitive deterioration in schizophrenia. G. P. Amminger et al (C) 164. R. M. G. Norman (Author’s reply) (C) 165

Executive dysfunction and duration of untreated psychosis. Eileen Joyce et al (suppl. 43) s38–s44

Intelectual function and schizophrenia. Paul Fearon and Robin M urray (Editorial) 276–277

Neurocognitive dimensions characterising patients with first-episode psychosis. S. Friis et al (suppl. 43) s85–s90

Neuropsychological abnormalities in a psychosis prodrome clinic. Martin Hambrecht et al (suppl. 43) s30–s37

Premorbid intellectual performance, early-life exposures and early-onset schizophrenia. David Gunnell et al 298–305

see also Dementia

Cognitive remediation therapy

Effects on the brain. Til Wykes et al 144–152

Cognitive therapy

Early detection and prevention of psychosis. A. P. M.orrison et al (suppl. 43) s78–s84

Commission for Health Improvement (CHI)

Improving the CHI. L. Patterson and J. Cornwall (C) 163–164. T. Burns (Author’s reply) (C) 164

Common mental disorders

Economic impact of personality disorders. Alison Rendu et al 62–66
Prevalence of psychiatric disorder and the need for care in Northern Ireland. P. M. C.Connell et al 214–219

Community care

Dropping out of care. Alberto Rosi et al 331–338
Exposure to case management: relationships to patient characteristics and outcome. Tom Burns et al 236–241
Forget community care - reinstitutionalisation is here. T. Turner and S. Priebé (C) 253
International differences in home treatment. T. Burns et al (Review article) 375–382

Comorbidity

Economic impact of personality disorders. Alison Rendu et al 62–66
Follow-up of childhood depression: historical factors. J. Hynes and N. McCune (C) 166–167. E. Fombonne (Author’s reply) (C) 167
Neurasthenia in Australia. Ian Hickie et al 56–61

Predictors of adult psychiatric outcome of attention-deficit hyperactivity disorder. Søren Dalsgaard et al 416–421

Use of drugs, alcohol and tobacco by people with schizophrenia. Robin G. M Creade on behalf of the Scottish Comorbidity Study Group 321–325

Compensation claims
After whiplash neck injury. O. Kwan and J. Friel (C) 253–254.
R. Ferrari (C) 254. R. M ayou (Author’s reply) (C) 254

Composite International Diagnos t ic Interview
Duration of major depressive episodes: results from N EM ESIS. Jan Spijker et al 208–213

Conduct problems
Follow-up of childhood depression: historical factors. J. Hynes and N. M. Ccune (C) 166–167.
E. Fombonne (Author’s reply) (C) 167

Predictors of adult psychiatric outcome of attention-deficit hyperactivity disorder. Søren Dalsgaard et al 416–421

Consciousness
Mind, brain and consciousness. B. Moore (C) 348.
P. Strickland and J. F. W. Deakin (Authors’ reply) (C) 349

Costs see Economics

Criminality
Noble experiment II: selective prohibition. Gavin M. C. Watt and M. Ireshni Naidu (Editorial) 3–5

Cultures
Explanatory models for mental distress. Kamaldeep Bhuji and Dinesh Bhugra (Editorial) 6–7

Expressed emotion: a cross-culturally valid concept? Andrew T. A. Cheng (Editorial) 466–467

Transcultural psychiatry. S. Dein (C) 535–536

Deliberate self-harm
Fatal and non-fatal repetition. David Owens et al (Review article) 193–199

Long-term hospital attendance in appendectomy patients. Nicola J. Dummett et al 526–530
Sexual molestation of males and psychological disturbance. Michael King et al 153–157

Delirium
Phenomenology of acute confusional states. V. Camus (C) 256–257

Dementia
Brain ageing and dementia: what makes the difference? Lawrence J. Whalley (Editorial) 369–371

Costs. A. Bianchetti et al (C) 533–534

Disease progression and cost of care. J. Wolstenholme et al 36–42

C. Holmes (Author’s reply) (C) 168

Managing behavioural and psychological symptoms. Brian Lawlor (Editorial) 463–465

With Lewy bodies. Clinical diagnosis. K. S. Shaji et al (C) 168–169

Depression
Comorbidity
Follow-up of childhood depression: historical factors. J. Hynes and N. M. Ccune (C) 166–167.
E. Fombonne (Author’s reply) (C) 167

Course and outcome
Depressive symptoms and cognitive decline in elderly people. Sabrina Pater niti et al 406–410

Duration of major depressive episodes: results from N EM ESIS. Jan Spijker et al 208–213

Follow-up of childhood depression: historical factors. J. Hynes and N. M. Ccune (C) 166–167.
E. Fombonne (Author’s reply) (C) 167

Global burden: the issue of duration. T. Bedirhan and R. Ferrari (C) 254. R. Mayou and J. Friel (C) 253

Neuroticism as a predictor of mood change: the effects of tryptophan depletion. M. eary E. Stewart et al 242–247

Cortisol, stress and depression. B. M. oore (C) 348. M. R. Garland (C) 348. P. Strickland and J. F. W. Deakin (Authors’ reply) (C) 349–350

Neuroticism as a predictor of mood change: the effects of tryptophan depletion. M. eary E. Stewart et al 242–247

Prevention
Preventing major depression in young people. Gavin Andrews et al (Editorial) 460–462

Risk factors
Cortisol, stress and depression. B. M. oore (C) 348. M. R. Garland (C) 348. P. Strickland and J. F. W. Deakin (Authors’ reply) (C) 349–350

Neuroticism, extraversion, life events and depression. Anne Farmer et al 118–122

Post-partum depression in rural India. M. Chandran et al 499–504

Psychosocial factors at work, personality traits and depressive symptoms. S. Pater niti et al 111–117

Therapy
M. E. T. MCM urdo and I. C. Red (Authors’ reply) (C) 532

Neuropsychology
Neuroticism as a predictor of mood change: the effects of tryptophan depletion. M. eary E. Stewart et al 242–247

Pathology
Structural MRI in first-episode schizophrenia, psychotic and severe non-psychotic depression. R. K. R. Salokangas et al (suppl. 43) s58–s65

Pathophysiology
Cell adhesion molecule expression in major depression in the elderly. Alan J. Thomas et al 129–134

Cerebellar responses during anticipation of noxious stimuli in recovered subjects. K. A. Smith et al 411–415

Economic costs. Stavros Petrou et al 505–512

In rural India. Incidence and risk factors. M. Chandran et al 499–504

Post-partum depression in rural India. M. Chandran et al 499–504

Psychosocial factors at work, personality traits and depressive symptoms. S. Pater niti et al 111–117

Therapy
M. E. T. MCM urdo and I. C. Red (Authors’ reply) (C) 532
Interventions for treatment-refractory depression. Nicola Stimpson et al (Review article) 284–294
see also Antidepressants

Developing countries
Post-partum depression in rural India. M. M. Chandran et al 499–504

Diagnoses
Chronic fatigue syndrome or neuromasthia? L. Bailly (C) 350–351
Clinical diagnosis of dementia with Lewy bodies. K. S. Shahi et al (C) 168–169
Depression: detection and diagnosis. P. Snith (C) 165
Hypomania: what's in a name? Guy Goodwin (Editorial) 94–95
Pathways to care in children at risk of ADHD. Kapil Sayal et al 43–48
Personality disorder. D. Pilgrim (C) 77. R. E. Kendell (Author's reply) (C) 77–78

Dietary interventions
Influence of supplementary vitamins, minerals and essential fatty acids on antisocial behaviour. C. Bernard Gesch et al 22–28

Difficult-to-place patients
Long-term outcome of long-stay in-patients. Noam Trieman and Julian Leff 428–432

Disability
Neuroasthenia in Australia. Ian Hickie et al 56–61

Disasters
Survivors of the Piper Alpha disaster: long-term follow-up study. Aladair M. Hul et al 433–438

Dopamine
And antipsychotic drug action, revisited. H. M. Jones and L. S. Pilowsky (Editorial) 271–275
Regional selectivity of novel antipsychotics. M. Kopecek et al (C) 254–255. J. L. M Arint et al (Authors' reply) (C) 255

Dorsolateral prefrontal cortex
Cell adhesion molecule expression in depression. Alan J. Thomas et al 129–134

Down's syndrome
And Alzheimer's disease. Genetics. S. Shamas-Ud-Din (C) 167–168. C. H olmes (Author's reply) (C) 168

Drug misuse see Substance misuse

Drugs
Clozapine-resistant schizophrenia: a positive approach. Lisa Williams et al (Editorial) 184–187
see also Antidepressants; Antipsychotics; Cannabis; Citalopram; Clozapine; Cocaine; Fluoxetine; Lithium; Placebo; Quetiapine

DSM – IV
Citalopram in the prevention of recurrent depression. René Klysner et al 29–35
Cognitive-behavioural therapy in early schizophrenia. S. Lewis et al (suppl. 43) s91–s97
Hypomania. Guy Goodwin (Editorial) 94–95
Rural first-episode schizophrenia and bipolar disorder. Paul J. Scully et al (suppl. 43) s3–s9

Duration of untreated psychosis (DUP)
Estimating cognitive deterioration in schizophrenia. G. P. Amminger et al (C) 164. R. M. G. Norman (Author's reply) (C) 165
Executive dysfunction in first-episode schizophrenia. Eileen Joyce et al (suppl. 43) s38–s44
And pathways to care in first-episode psychosis. Amanda Skeate et al (suppl. 43) s73–s77

Dyskinesia
Spontaneous dyskinesia and parkinsonism in never-medicated patients with schizophrenia. R. G. McCreadie et al 135–137

East Africa
Focus on psychiatry. Frank Njenga 354–359

Eating disorders

Economics
Cost of somatisation. B. Sheehan (C) 79
Costs of dementia. A. Bianchetti et al (C) 533–534
Costs of post-natal depression. Stavros Petrou et al 505–512
Disease progression and cost of care in dementia. J. Wolstenholme et al 36–42
Impact of personality disorders in UK primary care attenders. Alison Rendu et al 62–66
Learning disability expenditure v. workload across English health authorities. Bunny Forsyth and Paul Winterbottom (Review article) 200–207
see also Bethlem Hospital; West London Study

Ethics
Euthanasia, assisted suicide, and psychiatry. Brendan D. Kelly and Declan M. M C Loughlin (Editorial) 278–279
Unethical use of placebo controls. A. K. Jainer and N. Soni (C) 532–533. R. Klysner and M. Andersen (Authors' reply) (C) 533

Ethnicity
Ethnic differences in prisoners. Jeremy Cold et al 1: Criminality and psychiatric morbidity 473–480
2: Risk factors and service use 481–487

England
Learning disability expenditure v. workload across health authorities. Bunny Forsyth and Paul Winterbottom (Review article) 200–207

Elderly
Brain ageing and dementia: what makes the difference? Lawrence J. Whalley (Editorial) 369–371
Cell adhesion molecule expression in depression. Alan J. Thomas et al 129–134
Citalopram in the prevention of recurrent depression. René Klysner et al 29–35
Clinical diagnosis of dementia with Lewy bodies. K. S. Shahi et al (C) 168–169
Depression and mortality in a high-risk population. Melanie Abas et al 123–128
Depressive symptoms and cognitive decline. Sabrina Paterniti et al 406–410
Effects of exercise on depression. K. Jagadeesan et al (C) 532. M. E. T. M C Uro and I. C. Reid (Authors' reply) (C) 532
Managing behavioural and psychological symptoms in dementia. Brian Lawlor (Editorial) 463–465
Outcome measurement: the Italian experience in psychogeriatrics. R. Rizzini et al (C) 442–443
Recruitment in old age psychiatry. G. Spencer (C) 443
Suicide: a telephone support and assessment intervention. Diego Deleo et al 226–229
Suicide: the promise of telecommunications. Beverly N. Jones (Editorial) 191–192
Unethical use of placebo controls. A. K. Jainer and N. Soni (C) 532–533. R. Klysner and M. Andersen (Authors' reply) (C) 533

INDEX, VOL. 181
INDEX, VOL. 181

Explanatory models for mental distress. Kamaldeep Bhui and Dinesh Bhugra (Editorial) 6–7

Genetic variation in European suicide rates. P. Hrdina (C) 350

Europe

Genetic variation in suicide rates. P. Hrdina (C) 350

International differences in home treatment. T. Burns et al (Review article) 375–382

Cognitive functioning and treatment with quetiapine. K. P. Good et al s45–s49

Duration of untreated psychosis and pathways to care. Amanda Skatte et al s73–s77

Early detection and prevention of psychosis. A. P. Morrisson et al s78–s84

Edinburgh High-Risk Study. Eve C. Johnstone et al s26–s29

Executive dysfunction and duration of untreated psychosis. Eileen Joyce et al s38–s44

Family history and age at first contact in schizophrenia. Majella Byrne et al s19–s25

Independent course of childhood auditory hallucinations. Sandra Escher et al s10–s18

Neurocognitive dimensions characterising patients with first-episode psychosis. S. Friis et al s85–s90

Neurological soft signs in first-episodic psychosis. Paola Dazzan and Robin M. M urray s50–s57

Neuropsychological abnormalities in a psychosis prodrome clinic. Martin H ambrecht et al s30–s37

OPUS study: suicidal behaviour. M. Nordenfelt et al s98–s106

Rural first-episode schizophrenia and bipolar disorder. Paul J. Scully et al s3–s9

Shôn Lewis (Editorial) s1–s2

Structural MRI in schizophrenia and affective disorders. R. K. R. Salokangas et al s58–s65

Euthanasia

Assisted suicide, and psychiatry. Brendan D. Kelly and Declan M. Mcloughlin (Editorial) 278–279

Evidence-based psychiatry

Clinical effectiveness. Anna Higgitt and Peter Fonagy (Reading about) 170–174

Evidence into practice. Rupatharshini Chilvers et al (Editorial) 99–101

Evolution

Handedness, language lateralisation and asymmetry in the aetiology of psychosis. T. J. Crow (Review article) 295–297

Executive dysfunction

In first-episode schizophrenia, and duration of untreated psychosis. Eileen Joyce et al (suppl. 43) s38–s44

Neurocognitive dimensions characterising patients with first-episode psychosis. S. Friis et al (suppl. 43) s85–s90

Quetiapine treatment in first-episode psychosis. K. P. Good et al (suppl. 43) s45–s49

Exercise

Effects on depression in old age. A. K. Jagadheesan et al (C) 532

M. E. T. Mcmurdno and I. C. Reid (Authors’ reply) (C) 532

Explanatory Model Interview Catalogue

Explanatory models for mental distress. Kamaldeep Bhui and Dinesh Bhugra (Editorial) 6–7

Explanatory models

For mental distress. Kamaldeep Bhui and Dinesh Bhugra (Editorial) 6–7

In psychiatry. B. Saravanan (C) 351

Transcultural psychiatry. S. Wein (C) 535–536

Expressed emotion

A cross-culturally valid concept? Andrew T. A. Cheng (Editorial) 444–447

Stigma by association. Psychological factors in relatives. M argaret Östman and Lars Kjellin 494–498

Fatigue

Chronic fatigue syndrome or neurasthenia? L. Ballay (C) 350–351

N neurasthenia in Australia. Ian Hickie et al s6–s61

Fluoxetine

In prevention of relapse in PTSD. Ferenc M artenyi et al s315–s320

Forensic psychiatry

2: Risk factors and service use 481–487

Influence of supplementary vitamins, minerals and essential fatty acids on the antisocial behaviour of prisoners. C. Bernard G esch et al 22–28

M ental disorder and perceived threat to the public. Liz Jamieson and Pamela J. Taylor 399–405

Psychosis and drug dependence in prisoners. M. Farrell et al 393–398

The verdict of ‘suicide while insane’. Henry Rollin (One hundred years ago) 443–444

Frequent attenders

Cost of somatisation. B. Sheehan (C) 79

Long-term hospital attendance in appendicectomy patients. Nicola J. Dummett et al s52–s530

Functional magnetic resonance imaging

Cerebellar activation in subjects recovered from depression. K. A. Smith et al 411–415

Effects on the brain of cognitive remediation therapy. T il Wykes et al 144–152

GAZEL Study

Psychosocial factors at work, personality traits and depressive symptoms. S. Paterniti et al s111–s117

Gender differences

Depression and mortality in a high-risk population. Melanie Abas et al s123–s128
N eurocognitive dimensions characterising patients with first-episode psychosis. S. Friis et al (suppl. 43) s85–s90
Predictors of adult psychiatric outcome of attention-deficit hyperactivity disorder. Søren Dalgaard et al 416–421
Rural first-episode schizophrenia and bipolar disorder. Paul J. Scully et al (suppl. 43) s3–s9
Suicide among the elderly: a telephone support and assessment intervention. Diego De Leo et al 226–229

General Health Questionnaire

General practice see Primary care

Genetics
Are anxiety disorders really expressions of instability in the human genome? David A. Collier (Editorial) 457–459
Of Down’s syndrome and Alzheimer’s disease. S. Shamas-Ud-Din (C) 167–168. C. H olmes (Author’s reply) (C) 168
Edinburgh High-Risk Study. Eve C. Johnstone et al (suppl. 43) s26–s29
Handedness, language lateralisation and asymmetry in the aetiology of psychosis. T. J. Crow (Review article) 295–297
Neuroticism, extraversion, life events and depression. Anne Farmer et al 118–122
Non-right-handedness and schizophrenia. M. Annett (C) 349–350
Variation in European suicide rates. P. H rdina (C) 350

Gillow, Olivia
Insistent Rub. Chosen by Robert Howard (Psychiatry in pictures) A6

Global Assessment of Functioning
Dropping out of care. Alberto Rossi et al 331–338

Glucocorticoids
Stress and the developmental hypothesis of schizophrenia. David Cotter and Carmine M. Pariante (Editorial) 363–365

Hallucinations
Cognitive-behavioural therapy in early schizophrenia. S. Lewis et al (suppl. 43) s91–s97
Independent course of childhood auditory hallucinations. Sandra Escher et al (suppl. 43) s10–s18
OPUS study: suicidal behaviour in first-episode psychosis. M. Nordentoft et al (suppl. 43) s98–s106

Handedness
Language lateralisation, and asymmetry in the aetiology of psychosis. T. J. Crow (Review article) 295–297
Non-right-handedness and schizophrenia. M. Annett (C) 349–350

Haskovec, Ladislav
And akathisia: 100th anniversary. Pavel M ohr and Jan Volavka (One hundred years ago) 537

Health authorities
Learning disability expenditure v. workload across English authorities. Bunny Forsyth and Paul Winterbottom (Review article) 200–207

Help-seeking behaviour
Duration of untreated psychosis and pathways to care. Amanda Skeate et al (suppl. 43) s73–s77

Post-partum depression
Economic costs. Stavros Petrou et al 505–512

In rural India. M. Chandran et al 499–504

Post-traumatic stress disorder (PTSD)
Brief screening instrument. Chris R. Brewin et al 158–162

Fluoxetine in prevention of relapse. Ferenc M. Arney et al 315–320

Neuroimaging findings. Aladair M. H.ull (Review article) 102–110

Screening. M. L. Lu and W. W. Shen (C) 535. C. R. Brewin (Author’s reply) (C) 535

Survivors of the Piper Alpha disaster: long-term follow-up study. Alastair M. Hull et al 433–438

Prefrontal cortex
Executive dysfunction and duration of untreated psychosis. Eileen Joyce et al (suppl. 43) s38–s44

Prenatal factors
Antenatal anxiety, parenting and behavioural/emotional problems in children. J. Barlow (C) 440–441. T. G. O’Connor (Author’s reply) (C) 441
Premorbid intellectual performance, early-life exposures and early-onset schizophrenia. David Gunnell et al 298–305

Prevention
Preventing major depression in young people. Gavin Andrews et al (Editorial) 460–462
Why are we not getting any closer to preventing suicide? Diego de Leo (Editorial) 372–374

Primary care
Duration of untreated psychosis and pathways to care. Amanda Skeate et al (suppl. 43) s73–s77
Economic impact of personality disorders. Alison Rendu et al 62–66
Pathways to care in children at risk of ADHD. Kapil Sayal et al 43–48

Prisoners
Ethnic differences. Jeremy Coid et al 1: Criminality and psychiatric morbidity 473–480
2: Risk factors and service use 481–487
Influence of supplementary vitamins, minerals and essential fatty acids on antisocial behaviour. C. Bernard Gesch et al 22–28
Psychosis and drug dependence. M. Farrell et al 393–398

ProtocadherinXY
Handedness, language lateralisation and asymmetry in the aetiology of psychosis. T. J. Crow (Review article) 295–297

Psychiatric disorders see Mental disorders

Psychiatry
In China. H. Shan (C) 257
Euthanasia, assisted suicide, and psychiatry. Brendan D. Kelly and Declan M. M. Cloughlin (Editorial) 278–279
Explanatory models. B. Saravanan (C) 351. M. Broome (C) 351–352
Focus on psychiatry in East Africa. Frank Njenga 354–359
Focus on psychiatry in Italy. Marco Piccinelli et al 538–544
Recruitment and retention. C. O’Gara and J. Sauer (C) 163. L. Clarke-Smith and R. Tranter (C) 163
Recruitment in old age psychiatry. G. Spencer (C) 443
Recruitment of psychiatrists. H. Prins (C) 79–80

Psychiatry in pictures
Chosen by Robert Howard
Angus M. Phee (1916–1997) A22
Clay pots by Bibi Herrera (b. 1956) A18

Olivia Gillow A6
Sir Christopher Wren (1632–1723) A14
William Hogarth (1697–1764) A10

Psychological models of change
Evidence into practice. Rupatharshini Chilvers et al (Editorial) 99–101

Psychological treatments
CBT for psychosis. E. Kuipers et al (C) 534. D. Turkington (Author’s reply) (C) 534
Clozapine-resistant schizophrenia: a positive approach. Lisa Williams et al (Editorial) 184–187
Cognitive-behavioural therapy in early schizophrenia. S. Lewis et al (suppl. 43) s91–s97
Early detection and prevention of psychosis. A. P. Morrison et al (suppl. 43) s78–s84
Effects on the brain of cognitive remediation therapy. Til Wykes et al 144–152
Interventions for treatment-refractory depression. Nicola Stimpson et al (Review article) 284–294

Psychosis
Adult psychosis, childhood infections and neurological soft signs. S. J. Leask et al 387–392
CBT. E. Kuipers et al (C) 534. D. Turkington (Author’s reply) (C) 534
And drug dependence in prisoners. M. Farrell et al 393–398
Exposure to case management: relationships to patient characteristics and outcome. Tom Burns et al 236–241
Handedness, language lateralisation and anatomical asymmetry in the aetiology. T. J. Crow (Review article) 295–297
Premorbid intellectual performance, early-life exposures and early-onset schizophrenia. David Gunnell et al 298–305
Temporal lobe volume changes in people at high risk of schizophrenia with psychotic symptoms. Stephen M. Lawrie et al 138–143
see also Duration of untreated psychosis; European First-Episode Schizophrenia Network (suppl. 43); Schizophrenia

Qigong-induced mental disorder
Psychiatry in China. H. Shan (C) 257

Questionnaires
General Health Questionnaire 214–219
Illness Perception Questionnaire 6–7
Trauma Screening Questionnaire 158–162, (C) 535, (Author’s reply) (C) 535

Quetiapine
Improvement in cognitive functioning in first-episode psychosis during treatment. K. P. Good et al (suppl. 43) s45–s49

Rating scales see Scales

Reading about
Clinical effectiveness. Anna Higgitt and Peter Fonagy 170–174

Reception houses
The Edinburgh scheme for a psychiatric clinic. Henry Rollin (One hundred years ago) 352–353

Recruitment
In old age psychiatry. G. Spencer (C) 443
Of psychiatrists. H. Prins (C) 79–80
And retention in psychiatry. C. O’Gara and J. Sauer (C) 163.
L. Clarke-Smith and R. Tranter (C) 163

Refugees

Rehabilitation
Long-term outcome of difficult-to-place long-stay patients. Noam Trivedi and Julian Leff 428–432

Reinstitutionalisation
Forget community care. T. Turner and S. Priebe (C) 253

Relatives see Families

Research
Outcomes research in mental health. Simona M. Gilbody et al (Review article) 8–16
Qualitative review of user involvement. Premila Trivedi and Til Wykes (Review article) 468–472
Unethical use of placebo controls. A. K. Jainer and N. Soni (C) 532–533. R. Klysner and M. Andersen (Authors’ reply) (C) 533

Residential care
In Italy. National survey of non-hospital facilities. G. de Girolamo et al for the PROGRES Group 220–225
Rural populations
First-episode schizophrenia and bipolar disorder. Paul J. Scully et al (suppl. 43) s3-s9
Post-partum depression in India. M. Chandran et al 499-504

Scales
Abnormal Involuntary Movement Scale 135-137, 439-427
